

HVAC Repair Estimate

Date:

February 17, 2025

Description of Work:

Repair of damaged ductwork in the area surrounding the air filter. This includes sealing any leaks to prevent future damage to the HVAC system and ensure efficient operation.

Scope of Work:

- Replace missing section of ductwork in filter housing.
- Seal all leaks in the surrounding ductwork.
- Clean up work area.

Price:

\$650

Additional Considerations:

- **Warranty:** Please confirm if the HVAC system is still under any warranties. If so, some or all of the repair costs may be covered.
- **Previous Work:** Was any work performed on the HVAC system recently by another contractor? If so, it's possible that they are responsible for the damage and should cover the repair costs.

Next Steps:

Please contact me at your earliest convenience to discuss this estimate and schedule the repair work.
